eTelemetry Strengthens Sistemas Aplicativos Security Portfolio with People Identifying Technology

Sistemas Aplicativos leveraging eTelemetry's easy-to-use, complementary solutions to increase security and ease regulatory compliance for customers

Annapolis, MD (March 4, 2008) – eTelemetry, Inc., the leader in extracting real-time business information from network activity, has partnered with Sistemas Aplicativos, S.A., the leading provider of Information Security Solutions in Central America. This partnership leverages eTelemetry's patented people-to-IP technology to bring new capabilities to Sistemas Aplicativos' product portfolio.

“Sistemas Aplicativos' expertise in information security solutions and leadership in the Central American VAR community coupled with our innovative product suite makes this partnership a significant addition to eTelemetry's Catalyst Partner Program,” said Ermis Sfakiyanudis, eTelemetry's President and CEO.

Sistemas Aplicativos has added eTelemetry's Locate and Metron appliances to its product portfolio. Each appliance is built on eTelemetry's proprietary technology, correlating people to their activity on the network. These products lead to risk identification, reduced costs, and greater network efficiencies by answering the who, what, where, when, and how much on any network.

“We are excited to include Locate and Metron in the solution portfolio for our customers. We are sure that the powerful features of these products will complement our customers' ability to keep their networks secure and compliant,” said Mauricio Nanne, President of Sistemas Aplicativos.

About Sistemas Aplicativos

Sistemas Aplicativos, S.A. was founded in Guatemala in 1985 as an IT provider; since 1996 it has become the leading provider of Information Security Solutions in Central America. We provide Information Security related hardware, software, security assurance services, training, and consulting, through more than 60 IT professionals based in offices in Guatemala, El Salvador, Costa Rica, and Panama.

Our focus is being the best Information Security provider with the best customer satisfaction. Our teams of support engineers are certified by the different software and hardware providers to guarantee the highest degree of professional service. Sistemas Aplicativos' long term experience in the IT market has allowed us to implement and provide continuity to critical solutions contributing to the success of our customer base, which we consider our most precious asset.

About eTelemetry

eTelemetry is the leader in extracting real-time business information from network activity. eTelemetry's innovative products tell you everything about the people on your network, answering the who, what, where, when, and how much. By applying its proprietary technology, eTelemetry's award-winning products provide information leading to

increased productivity, risk identification, reduced costs, greater network efficiencies, and insights into how people collaborate. Since 2004, eTelemetry has been *Turning Network Traffic into Business Intelligence*™. For more information, call +1-888-266-6513 or visit www.etelemetry.com.
